Systems and Soft Computing

13 reviews completed

Manuscript title	Revision	Date completed
Network Security Analysis in the Quantum Era of Computing	0	9 October 2025
Analyze the Source Localization of Multi-Robot Collaborative Control with Swarm Intelligence In Hazardous Environment	0	23 August 2025
Research on the application of improved MCMC algorithm in the measurement of high-dimensional financial data	0	2 April 2025
Securing the Economic Management and Service Infrastructure of Banks via the Use of Artificial intelligence	2	21 March 2025
Securing the Economic Management and Service Infrastructure of Banks via the Use of Artificial intelligence	1	13 February 2025
Formulation of Stability in Relation to Stiffness, Damping and Deflection of Robot Manipulators	0	19 January 2025
Securing the Economic Management and Service Infrastructure of Banks via the Use of Artificial intelligence	0	9 January 2025

Analyzing the quality evaluation of college English teaching based on probabilistic linguistic multiple-attribute group decision-making	1	22 December 2024
Analyzing the quality evaluation of college English teaching based on probabilistic linguistic multiple-attribute group decision-making	0	19 October 2024
Application of Game Model in Dynamic Network Defense	0	27 July 2024
Study on the impact of RFID technology on the efficiency of intelligent logistics warehouse management	0	12 May 2024
Combination of Optimization and Random Forest for Parameters Automatic Determination of Apache Spark	0	31 March 2024
The Application of Mixed Teaching Mode in Digital Media Technology Specialty Animation Design under Mobile Network Environment	0	11 February 2024
